Art Unit: 1616

Applicant's election with traverse of a method of making using powders added separately, wherein the adhesive is melted after the second substrate is applied and wherein the adhesive is added first in the reply filed on is acknowledged. The traversal is on the ground(s) that neither a patentable difference nor burden has been shown. This is not found persuasive because applicant has not disclosed any relationship between the species. The species are deemed independent and an election is mandatory. Applicants can overcome the requirement by stating on the record that the species are obvious variants, however, a rejection over one species shall than be applicable to all.

The requirement is still deemed proper and is therefore made FINAL.

The election of species requirements regarding separate versus mixed powders and which powder is added first are withdrawn. The examiner notes that independent claims 33, 45 and 51 are directed to methods of making using two powders wherein the adhesive powder is heated before application of the second substrate layer.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7, 8, 44, 50 are rejected under 35 U.S.C. 102(b) as being anticipated by Koslow et al.

Art Unit: 1616

Koslow et al teach a method comprising mixing particulate agents with a particulate binder, adding the mixture to a substrate web (abstract). Thermoplastic binders are specified (column 1 line 57-58). Addition of a second web followed by heating is disclosed (column 2 line 47-column 3 line 9, figure 1, note second supply roll 30 and heated roller 22). Active agents for odor absorption are disclosed (column 1 lines 30-32).
